

We Are Now... Tobacco Free!

**Because we care
for the health of
our community**

The Hazard ARH Regional Medical Center community including the hospital, clinic, HomeCare Store, Home Health Agency, ARH System Center, and the ARH Medical Mall in Hazard are now tobacco free. As part of this initiative, no tobacco use of any kind will be permitted - inside or outside - on ARH property. Hazard ARH's decision to go tobacco-free is a concrete way to demonstrate ARH's ongoing commitment to healthy living.

Thinking about quitting?

The UK Center for Rural Health's Cooper-Clayton smoking cessation program can help. For more information, contact Melissa Hendrickson at 606-439-3557, ext 83512.
