Program Description
The RightSTEPS: Optimizing Medical Therapy for Chronic Heart Failure program has been designed as an online and live learning curriculum to enhance understanding of how specified optimal medical therapy guidelines improve heart failure outcomes. Research suggests that while outcomes have improved in other cardiovascular diseases, we have seen only limited success in heart failure prevention and management, with significant variability in outcomes between national regions, gender, and communities of color.

To address the 75% of chronic heart failure patients who do not receive optimal doses of guideline recommended drugs, the American College of Cardiology (ACC) and Haymarket Medical Education (HME) have joined forces to provide an expert faculty guided, case-based approach to changing heart failure outcomes through optimal medical therapy.

Learning Objectives
At the conclusion of this activity, clinicians should be better able to:
- Demonstrate appropriate selection of optimal medical therapy for heart failure patients including African Americans, Hispanics, Native Americans, and women.
- Demonstrate an understanding of HF performance data, specifically individual prescribing rates and CMS core measures.
- Determine how individual prescribing rates and/or CMS core measures can be utilized for clinical quality improvement.

Earn Up to 14.5 Additional CME/CNE Credits
Prior to your attendance at the upcoming live program, the ACC highly recommends you first participate in the following activities on myCME to gain the necessary prerequisite knowledge of HF guidelines, MACRA, and Quality Payment Programs:
- www.myCME.com/CareSteps
- www.myCME.com/CoreMeasures

To complete these activities and others in the RightSTEPS online, self-paced curriculum, please visit: www.myCME.com/RightSTEPS

Accreditation Statements
Physicians
The American College of Cardiology Foundation (ACCF) is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

The ACCF designates this live meeting for a maximum of 2.0 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Nurses
The American College of Cardiology Foundation (ACCF) is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center’s Commission on Accreditation.

The ACCF designates this educational activity for a maximum of 2 continuing nursing education contact hours. Requirements for successful completion are viewing of module in its entirety and completing the evaluation tool.
