**FAMILY INCOME** - Income from all contributing members of a family unit with one (1) satisfactory Proof of Income (POI) based upon the three (3) month period prior to date of application. More than 1 POI may be required when POI consists of letters from reliable sources, self employed business income, or if POI is inadequate. Self employment income shall include previous years tax return including Schedule C and a year to date statement of current year income.

**FAMILY UNIT** - A group of two or more persons related by birth, marriage or adoption. A single self supporting person may be considered as a family unit of one. However, an emancipated minor must provide some form of documented proof to be considered for financial aid as a separate family unit. If an individual or couple are living with another family unit guidelines for financial purposes will be based upon number of family members in family unit applying for financial aid. If a family unit is also receiving economic assistance, the value of such assistance will be added into the total gross family income.
